SPEAKERS.

We've had a wonderful selection of speakers during the last year. They've included:

- Dave Smith from Super Nova who gave us some insight into Window-7.
- Dianne Russell – Taylor who explained her connections with the Regional Peel Development Commission and what she does in particular plus the seven regions of W. A.

Mayor Paddi gave a talk on Mandurah and the F Region. She showed a map clarifying the breadth, length, rivers and land size which included Lake Clifton and the unusual shape of the whole area.

- Anne Williams from the Have-a-Go Newspaper explained her activity as co-coordinator. She is semi retired and laughingly said she gets paid for being a social butterfly!
- Blanche and Ken Holzman Demonstrated Quantum Technology, with the aid of several digital equipment pieces to assist the sight impaired.
 - Jurgen Steinert of Lasar Computers. Mandurah. Gave an excellent talk into the insight of how computers actually work.
 - Our last speaker, to finish off the year, was David Templeman MLA. Followed by a very festive Christmas afternoon tea !

The years events have been received with enthusiasm they included

- the 'Bring and Buy Table'.
- Don Randall's Forum at the Bowling Club rooms Halls Head.
- We enjoyed the Buddies get together in the Computer Room it was a chance to get to know the Buddies for one's own district.

- We also manned a stall at the Foundation Christian College at their 'Fair'. A lot of fun and interest was shown to our stall.
- Our Vice-President Kate Orr attended the annual ASCCA conference this year which was most rewarding.
- The Digital Photo competition created a great deal of interest among members and was judged and sponsored by Peter Taylor, Manager of Camera house, Mandurah. All entries were beautiful he felt and everyone was a winner!
